Page 1 of 1

between (Certificate holder) In the following called the certificate holder	and (Subcontracted farm) In the following called the subcontractor			
1. The certificate holder contracts the subcontractor for production of the following organic crops:				
	Plot	Crop	Area	Annual production capacity
2. The certificate holder applies to ADITI for certification according to the following standards: NPOP/NOP/COS/OTHERS				
3. The subcontractor does not need an own certificate.				
4. The subcontractor agrees on fulfilment of the organic standards, especially preservation of soil fertility and environment, non-use of chemical fertilisers and pesticides, and avoiding commingling of organic and conventional products.				
5. The subcontractor will keep records on agricultural practices, harvested, stored, and sold quantities, and file all invoices for purchased farm inputs and sold products.				
6. The subcontractor will give ADITI and the certificate holder free access to his/her operation, including fields, buildings, and documents, for announced and unannounced inspections.				
7. The certificate holder will supervise permanently fulfilment of the standards by the subcontractor.				
8. The certificate holder is responsible for providing training and consultancy to the subcontractor.
