CIRCULAR

Subject: Import of NOP Certified Organic Ingredients for Re-Export to the USA

Ref. No.: ADITI/HO/2025/Circular/003

Dear Operators,

This circular is issued to clarify the guidelines with reference to import of NOP-certified organic ingredients for value addition and re-export to the USA.

The advisory issued in 2014 on this subject matter was reviewed by the National Accreditation Body (NAB) recently. The decision of the NAB is mentioned below

The **import of NOP-certified organic ingredients** that are either **unavailable in India or not available in the required quality or quantity** for manufacturing **value-added organic products** will be continued. These imported NOP-certified ingredients **must be used strictly for the purpose of re-export to the USA only**.

Minimum Actionable items to ensure proper implementation of this directive:

For Operators or clients who wish to import NOP certified organic products:

- Ensure strict compliance with the advisory.
- Maintain accurate documentation and ensure complete tracking and traceability of all imported NOP-certified ingredients.
- Ensure that these records are available for strict verification to confirm that the imported products are used exclusively for manufacturing multi-ingredient organic products intended for re-export to the USA.

For the accredited certification body:

- Maintain audit trail and ensure complete traceability of the imported NOP certified ingredients.
- Ensure that the imported NOP certified ingredients are used only for manufacturing multi-ingredient products for re-export to the USA.

With warm regards,

For ADITI Organic Certifications Pvt. Ltd.
